Re: Mine Status, Serendipity-Cubical 2 (S/023/017) and ML 47821-ML46956-Cactus (S/023/057), Juab County, Utah

Dear Mr. Sprunger:

In your Annual Reports received on January 16, 2001, you stated that as of 12/99, you transferred the Serendipity claim and the Cactus claims. You stated the work done on these two claims was done for Larry Lehto. However, you are reporting the work done on these claims under your permit.

This office has nothing to do with the transfer of mining claims; those are handled through the Bureau of Land Management. We only handle permits to mine on the claim. If you wish to transfer the Serendipity and Cactus portions of your permits to Mr. Lehto, you will need to complete a permit transfer form for each project. Our Division Director would have to sign and approve the transfer for it to become effective. At that time, you would be released of reclamation responsibility of the Serendipity and Cactus and Mr. Lehto would then become the responsible party for reclamation of those projects. *Until a transfer has been completed and approved by the Division Director, the Serendipity and Cactus will remain under your permit and you will be held as the responsible party for any and all reclamation required for these projects.*

We have enclosed two small mining transfer forms for this purpose if you desire to transfer to Mr. Lehto. Both you and Mr. Lehto will need to complete the transfer forms by supplying the legal description and a map of the portion of the project you are transferring. The remainder of the permit would remain your responsibility. We would create new files and issue new permit numbers for Mr. Lehto's two projects. He would also be required to submit permit fees for the new permits.

If you have any questions regarding this letter, please do not hesitate to call me at (801) 538-5321.

Sincerely,

Tom Munson
Senior Reclamation Specialist
